# Driver Control Features

## Headrest Adjustment

**To raise or lower the headrest:** Pull up on the headrest to raise it. To lower the headrest, press the lock knob while pressing down on the headrest.

**To adjust the headrest forward or backward:** Pull the headrest forward to adjust it to one of three positions. To adjust the headrest rearward, pull the headrest all the way forward, then release.

## Power Outside Rearview Mirrors

The switch is located on the driver's armrest and can be used to adjust both the left and right outside mirrors.

**To adjust the position of either mirror:**

1. Move the selecting switch **A** to the R (right) or L (left) to adjust the corresponding mirror.
2. Adjust the mirror angle by depressing the appropriate direction on the perimeter switch.
3. Move the selecting switch back to the middle position to deactivate the perimeter switch.

## Fuel Filler Door Release

### REFUELING

Fuel door release lever is located by the trunk release lever.

**NOTE:** After adding fuel, always reinstall the fuel cap fully and make sure it clicks at least three times. Failure to do this may result in the Check Engine light illuminating.

## Windshield Wiper / Washer

To activate the windshield wipers, move the wiper / washer switch to one of the four positions:

**MIST** – Single wipe

**INT** – Intermittent wipe

**LO** – Low wiper speed

**HI** – High wiper speed

### WIPE / WASH OPERATION

To use the windshield washer, pull the wiper / washer lever towards you. When the washer is operated, the wipers automatically make two passes across the windshield. The washer continues to operate until the lever is released.

## Rear Window Wiper / Washer

To turn ON rotate the wiper stalk up one position. The rear wiper will run continuously.

To use the washer rotate the wiper stalk up two positions.

To wash with two or three wipes rotate the wiper stalk down one position.

## Headlights

### HEADLIGHT SWITCH

To operate the headlights, twist the switch on the end of the lever:

**OFF** – Headlights off

 – Parking lights on

 – Headlights on

**NOTE:** The ignition must be in the ON position to turn on the headlights.

**High Beam Activation:** Push the lever forward.

**Flash Feature:** Pull the lever toward you and release.

## Driver Control Illumination Switch

The instrument cluster illumination can be adjusted.
