### PERIODIC INSPECTION AND MAINTENANCE

## SECTION 2

## THE HYUNDAI STORY

### HYUNDAI — AN OVERVIEW

Hyundai vehicles provide customers a high level of content and performance at an affordable price and demonstrate Hyundai's emergence as an auto manufacturer whose products compete successfully in technology, quality, styling and refinement with automobiles from around the world.

Hyundai sold its first car, a subcompact model, in the U.S. in 1986. At the time, few Americans had ever heard of Hyundai or its products. Since that time, Hyundai has expanded and upgraded its product line in the U.S. and has gained valuable experience in the competitive U.S. automobile market. Hyundai now markets a full line of vehicles from subcompacts to luxurious sedans.

### HYUNDAI MOTOR COMPANY

The Hyundai Group was founded in 1947 as Hyundai Engineering and Construction Co. by Ju-Yung Chung. Hyundai Motor Co., established in 1967, is the auto sales leader in the Korean domestic market and exports vehicles to 190 countries worldwide.

Hyundai Motor Co. ("HMC") operates the world's largest integrated automobile manufacturing facility in Ulsan, on Korea's southeast coast. In 1996 Hyundai opened the Namyang Technology Research Center, one of eight research centers, which includes a complete testing facility with a 2.8-mile oval test track and a sophisticated aeroacoustic wind tunnel. That same year, HMC began production at its state-of-the-art Asan Plant, located southwest of Seoul.

### A LOOK BACK – HYUNDAI'S ENTRY INTO THE U.S. MARKET

The timing of Hyundai's entry into the U.S. market in 1986 was ideal. At that time most automobile manufacturers had abandoned the entry-level market in favor of high-end, high-priced vehicles and that left a large void in the market. First-time car buyers such as college students and young families were not able to find adequate, value-equipped cars that met their needs, yet were priced within their economic means.

## SECTION 2

In February 1986, Hyundai launched its subcompact Excel model in the U.S. market. Customer response was immediate; in just seven months Hyundai Motor America had sold its 100,000th Excel. Total 1986 sales numbered 168,882 – an industry record for an import car distributor in its first year. Hyundai sales averaged 1,431 units per dealer, another sales record. In 1987 Hyundai sales continued to soar reaching a record 263,610 units.

What makes this sales performance all the more remarkable is that it was done with dealers located in only 31 of the 50 states. In the early years, Hyundai concentrated its sales efforts primarily on the west and east coasts, as well as in the southern states. In 1987 Hyundai expanded into the central portion of the United States, and today there are five regions and more than 780 Hyundai dealerships nationwide. Hyundai has sold more than 6 million vehicles in the United States since its entry in 1986.

## THE HYUNDAI STORY

### EXPANDING THE PRODUCT LINE

#### Sonata

Hyundai took a major step toward becoming a full-line automotive importer/distributor in 1989 with the introduction of its mid-size sedan, the Sonata. This roomy, powerful, front-wheel-drive sedan expanded Hyundai's appeal to more mature, family-oriented buyers. It also offered Excel owners an opportunity to move up within the Hyundai product line. The Sonata was redesigned for the 2011 model. The new Sonata has a sophisticated design and the largest interior in its class.

#### Scoupe

Hyundai's third entry into the U.S. market was the sporty Scoupe, introduced as a 1991 model. The 1993-1995 Scoupe featured the Alpha engine – the first powerplant designed, engineered and manufactured exclusively by Hyundai.

#### Accent

In 1995, after 9 years in the U.S. market, the Excel was replaced by the all-new subcompact Accent. With the Accent, Hyundai offered customers high-tech sophistication and features, but still at an entry-level price. Today's Accent is the third generation.

#### Elantra

The next member of the Hyundai family to be introduced was the compact Elantra sedan, which debuted as a 1992 model. It quickly became one of Hyundai's best-selling models.

## SECTION 2

## THE HYUNDAI STORY

### Elantra Touring

The Elantra Touring was introduced in late 2009, delivering exceptional versatility and functionality in a sporty package for active families, while maintaining the exceptional value that is a hallmark of the Elantra name.

### Tiburon

In 1997, Hyundai replaced the Scoupe with the exciting Tiburon sport coupe, with styling based on the HCD-II concept car introduced at the North American International Auto Show in Detroit in 1993. The Tiburon combines sleek, eye-catching styling with outstanding performance and handling.

### Santa Fe

In the 2001 model year, Hyundai added the Santa Fe. The Santa Fe is a car-based crossover utility vehicle (XUT) that provides car-like ride and handling, with the seating position and utility of a sport utility vehicle.

### XG Sedan

For the 2001 model year, Hyundai added the XG sedan. The XG sedan was Hyundai's new flagship vehicle in the U.S. - it was larger and more luxurious than the Sonata.

### Azera

Hyundai replaced the XG sedan with the Azera starting with the 2006 model year. The Azera is a new definition of the premium sedan, with generous interior space.

### Entourage

In 2007, Hyundai introduced the Entourage. The Entourage is Hyundai's first van in the U.S. market.

### Tucson

In 2005, Hyundai added the Tucson. The Tucson is an exciting crossover utility vehicle that is slightly smaller than the Santa Fe, while still providing the utility needed for life's daily adventures.

### Veracruz

In 2007, Hyundai added the Veracruz. The Veracruz is a stylish midsize SUV with standard 7-passenger seating, sleek styling, car-like ride and premium features.

### Genesis

In the 2009 model year, Hyundai added the luxury sedan, Genesis. Genesis has an unprecedented combination of premium performance, technology, safety, and quality.

### Genesis Coupe

The Genesis Coupe made its debut in 2010. Genesis Coupe is Hyundai's most dynamic performance car ever and the second consecutive all-new model introduction from Hyundai appealing directly to the car enthusiast.

### Equus

For 2011, the Equus was added as Hyundai's flagship luxury sedan offering unsurpassed refinement while exceeding expectations with premium amenities and sophisticated design.

## SECTION 2

## THE HYUNDAI STORY

As the presence of Hyundai automobiles and Hyundai Motor America continued to grow in America, the company expanded its operations and service networks nationwide to more effectively serve the needs of dealers and customers.

## **EMISSION DEFECT WARRANTY - FEDERAL VEHICLE**

### **FEDERAL EMISSION CONTROL WARRANTY STATEMENT**

In accordance with the Federal Clean Air Act, as amended, Hyundai Motor America (HMA) warrants to the original and each subsequent owner of each new 2011 Hyundai vehicle that the vehicle: (1) was designed, built and equipped to conform at the time of sale to applicable federal regulations and (2) is free from defects in material and workmanship at the time of sale which would cause the vehicle to fail to conform with such regulations for a period of 5 years from the date of original retail delivery or date of first use or 60,000 miles, whichever occurs first, or up to first required scheduled maintenance, whichever occurs first. Additionally, certain major emissions control components listed under the following "8 Years/80,000 Mile Emission Warranty Parts List" will be covered for a period of 8 years from the date of original retail delivery or date of first use, or 80,000 miles, whichever occurs first. Any part of this vehicle covered under this warranty which proves to be defective will be repaired or replaced by any authorized Hyundai Dealer or Certified Equus Dealer (Equus only) using new or remanufactured Hyundai Genuine Parts. This warranty coverage applies to the vehicle regardless of a change in ownership and is transferable to subsequent owners. Failures, other than those resulting from defects in material or workmanship, which arise solely as a re-

sult of owner abuse and/or lack of proper maintenance, are not covered by the warranty. INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

### **WARRANTY JURISDICTION**

Some items require scheduled replacement as part of the scheduled maintenance of the vehicles. Replacement of these items is warranted in normal service up to the first replacement interval or up to the limits of the applicable emission warranty coverage period, whichever occurs first. (Refer to your Owner's Manual and its Scheduled Maintenance Section)

## SECTION 9

## EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

### WARRANTY JURISDICTION

This warranty applies to vehicles manufactured to either Federal specifications or California specifications which are distributed by Hyundai Motor America and registered and normally operated in the 50 United States and Washington, D.C. INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

### WHAT IS COVERED

Some states and local jurisdictions have established periodic vehicle inspection and maintenance (I/M) programs to encourage proper maintenance of your vehicle. If an I/M program in your area has U.S. Environmental Protection Agency (EPA) approval, you may be eligible for HMA's performance warranty coverage under the following conditions:

1. The vehicle has been maintained and operated in accordance with the scheduled maintenance instructions described in the Owner's Manual provided with your vehicle.
2. The vehicle fails to conform during the warranty period to the applicable emission standards as determined by an emissions test approved by the Environmental Protection Agency (EPA).

3. The failure to conform results, or will result, in the owner of the vehicle having to bear a penalty or other sanctions, such as denial of the right to operate or use the vehicle or a fine under local, state or federal law.

If all of the above conditions are met, HMA warrants that any authorized Hyundai Dealer or Certified Equus Dealer (Equus only) will replace, repair or adjust to Hyundai's specifications, at "NO CHARGE", any of the components listed on the following Emission Warranty Parts-Federal Vehicle chart, which may be necessary to cause your vehicle to conform to the applicable federal emission standards.

## SECTION 9

## EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

Hyundai provides greater warranty coverage of 5 years or 60,000 miles for all emission related components and provides 8 years or 80,000 miles coverage on the specific components noted.

## **EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE**

### **WHAT IS NOT COVERED BY THESE EMISSION WARRANTIES**

THE EMISSION DEFECT WARRANTY AND THE EMISSION PERFORMANCE WARRANTY SHALL NOT APPLY TO:

- Normal maintenance service (such as filters)
- Malfunctions in any part directly caused by misuse, modification, improper adjustment, alteration, tampering, disconnection, improper or inadequate maintenance, or use of leaded gasoline or contaminated fuel.
- Damage resulting from an accident or an Act of God.
- Any vehicle on which the odometer reading has been altered so that mileage cannot be readily determined.
- Failures that are a direct result of a lack of performance of required emission control maintenance as outlined in your Owner's Manual.
- Parts or accessories used in applications for which they were not designed or not approved by HMA.
- Parts not supplied by HMA or damage to other parts caused directly by using non-Hyundai parts, non-EPA certified replacement parts in the maintenance or repair of the vehicle which ultimately prove to be defective in material or workmanship, or not equivalent from an emission control standpoint to the original equipment part.

- INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

The duration of any implied warranties, including those of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE regarding emission systems defects are limited to the duration of these emission system warranties, Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions set forth regarding these warranties may not apply to you.

### **OWNER'S RESPONSIBILITY**

It is the owner's obligation to properly maintain and use the vehicle in accordance with Hyundai's written instructions in your Owner's Manual. Failures caused by inadequate or improper maintenance are not covered by the warranty. To help resolve questions as to whether the proper vehicle maintenance has been performed, HMA urges that the owner retain all maintenance service records and receipts indicating that service has been performed on the vehicle.

## SECTION 9

## EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

### REPLACEMENT PARTS

It is recommended that any replacement parts used for maintenance or for the repair of emission control systems be new or remanufactured Hyundai Genuine Parts.

THE WARRANTY OBLIGATIONS ARE NOT DEPENDENT UPON THE USE OF ANY PARTICULAR BRAND OF REPLACEMENT PARTS. THE OWNER MAY ELECT TO USE NON-GENUINE HYUNDAI PARTS FOR REPLACEMENT PURPOSES. THE USE OF REPLACEMENT PARTS WHICH ARE NOT EQUIVALENT MAY IMPAIR THE EFFECTIVENESS OF THE EMISSION CONTROL SYSTEM.

If other than Hyundai Genuine Parts are used for maintenance replacements or for the repair of components affecting emission control, the owner should determine that such parts are warranted by their manufacturer to be equivalent to Hyundai Genuine Parts in performance and durability.

“New or Remanufactured Hyundai Genuine Parts” when used in connection with Hyundai vehicles, means parts manufactured by or approved by Hyundai, designed for use on Hyundai vehicles and distributed by HMA.

### MAINTENANCE SERVICE

MAINTENANCE, REPLACEMENT OR REPAIR OF THE EMISSION CONTROL DEVICES AND SYSTEMS MAY BE PERFORMED BY ANY QUALIFIED AUTOMOTIVE REPAIR ESTABLISHMENT OR INDIVIDUAL USING ANY PART CERTIFIED PURSUANT TO APPLICABLE EMISSION REGULATIONS; HOWEVER, WARRANTY SERVICE MUST BE PERFORMED BY AN AUTHORIZED HMA OR CERTIFIED EQUUS DEALER.

Claims under the Emission Performance Warranty may not be denied due to the failure of a properly installed certified non-Hyundai Genuine Part.

Claims may be denied on the basis of an uncertified replacement part used in the maintenance or repair of a vehicle if Hyundai presents evidence that the uncertified replacement part is either defective in materials or workmanship or not equivalent from an emission standpoint to the original equipment part and the vehicle owner is unable to rebut the evidence.

## SECTION 9

## EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

Receipts covering the performance of maintenance service should be retained in the event questions arise concerning maintenance. These receipts should be transferred to each subsequent owner of this vehicle. HMA reserves the right to deny warranty coverage if the vehicle has not been properly maintained. However, denial will not be based solely on the absence of maintenance records.

These warranties apply only to vehicles manufactured to United States specifications which are distributed by Hyundai Motor America and registered and normally operated in the 50 United States and Washington D. C., the commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa, and includes the commonwealth of the Northern Mariana Islands. Vehicles manufactured to other than United States specifications, distributed by other than HMA and registered and normally operated outside the 50 United States and Washington DC., the commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa, or the Commonwealth of the Northern Mariana Islands are entitled to service of the emission control systems on the basis of the warranty applicable to such other distribution country.

### CLAIMS PROCEDURE

To obtain warranty service under these warranties, the owner should return the vehicle to an authorized Hyundai Dealer or Certified Equus Dealer(Equus only)'s place of business during its normal service business hours, where such service will be performed at no charge for parts, labor, diagnosis and tax.

If an owner's warranty claim under the 2011 Emission Performance Warranty is denied, HMA will provide the owner with a written explanation of why the claim was denied 1) within 30 days from the time you bring the car to Hyundai Dealer or Certified Equus Dealer(Equus only), or 2) within the time required by local, state, or federal law for the vehicle to be repaired without incurring further penalty, whichever is shorter.

Failure to provide an explanation within the 30-day period shall obligate HMA to remedy the nonconformity under the Emission Performance Warranty except:

- o When delay is requested by the vehicle owner.
- o When delay is caused by factors beyond the control of HMA or authorized Hyundai Dealer or Certified Equus Dealer (Equus only).

1. The 15 year or 150,000 mile extended warranty applies to parts covered under the Performance and Defect Warranty as listed in this Owner's Handbook to PZEV-certified only vehicles sold and registered in the listed states, including the state of New York, with the exception of Pennsylvania and Washington. The 15 year or 150,000 mile extended warranty does not apply in Pennsylvania and/or Washington.

**SPECIAL NOTE : According to Federal Regulations, your vehicle may also be eligible for additional warranty coverage under the Federal Emission Warranty. California requires minimum emission warranty coverage of the first 3**

years or 50,000 miles of vehicle use, with coverage for the first 7 years or 70,000 miles for certain "high cost" emission related parts, determined by a California government specified formula.

**Hyundai provides greater warranty coverage of 5 years or 60,000 miles for all emission related components and 8 years or 80,000 miles coverage for catalytic converters, the electronic engine control module, and the onboard emissions diagnostic device.**

Some items are scheduled for replacement as part of the required maintenance for the vehicle.

Replacement of these items is warranted up to the first replacement interval or up to the limits of the applicable Emission Warranty coverage period, whichever occurs first (Refer to the Scheduled Maintenance chart in your Owner's Manual). Any such part repaired or replaced under warranty shall be warranted for the remainder of the warranty period for that part.

If the failure of a warranted component causes damage to any other vehicle part, both parts will be covered by the Emission Warranties.

### WARRANTY START DATE:

The above-mentioned warranty periods shall begin on the date the vehicle is delivered to the first retail purchaser or, if the vehicle is first placed in service as a demonstrator or company car prior to sale at retail, on the date the vehicle is first placed in such service.

### WHAT IS NOT COVERED

THE EMISSION CONTROL SYSTEM DEFECTS WARRANTY AND THE EMISSION CONTROL SYSTEM PERFORMANCE WARRANTY SHALL NOT APPLY TO:

- Malfunctions in any part directly caused by abuse, misuse, modification, improper adjustment except those done by a dealership during warranty service work, alterations, tampering, disconnections, improper or inadequate maintenance, neglect or use of leaded gasoline or other fuels not recommended in the Owner's Manual.
- Damage resulting from an accident or an Act of God.
- Any vehicle on which the odometer reading has been altered so that actual mileage cannot be readily determined.
- Failures that are a direct result of a lack of performance of required emission control maintenance as outlined in your Owner's Manual.
- Parts or accessories used in applications for which they were not designed or not approved for use on the vehicle by HMA.
- Parts not supplied by HMA or damage to other parts caused directly by non-Hyundai parts or non-equivalent parts.
- The charge for diagnostic labor which does not lead to the determination that a warrantable condition exists.

## SECTION 10 EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE

- \* INCIDENTAL OR CONSEQUENTIAL DAMAGES, SUCH AS, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.
- \* The duration of any implied warranties, including those of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE, regarding emissions systems defects are limited to the duration of this limited warranty.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage, so the limitations or exclusions set forth regarding this limited warranty may not apply to you.

### REPLACEMENT PARTS

It is recommended that any replacement parts used for maintenance, repair or replacement of the emission control system be parts supplied by HMA.

Maintenance, repair or replacement of the emission control system may be performed by any qualified automotive repair facility or individual, using parts other than Hyundai Genuine Parts without invalidating this warranty.

However, the cost of such maintenance and parts will not be

covered under this warranty unless it is an “Emergency Repair” situation. (Refer to “Emergency Repair” for definition of emergency repair situation)

Use of replacement parts which are not equivalent in quality to Hyundai Genuine Parts may impair the effectiveness of the emission control system. You should make sure such parts are warranted by their manufacturer to be equivalent in design and quality to Hyundai supplied parts. HMA assumes no liability under this warranty for any vehicle damage caused by a defect in any such parts.

### OBTAINING WARRANTY SERVICE

To obtain warranty service, you must return your Hyundai vehicle to any authorized Hyundai Dealer or Cerified Equus Dealer(Equus only) in California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, New Mexico, Oregon, Pennsylvania, Rhode Island, Vermont or Washington during its normal service business hours, where such service will be performed.

When failing a Smog Check test, an authorized Hyundai Dealer or Cerified Equus Dealer(Equus only) may ask the owner to provide proof that the required maintenance was performed when the dealer has reason to believe that the required maintenance;

## **SECTION 10 EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE**

- o Was not performed and
- o If not performed, may be the cause for the particular vehicle exceeding applicable emission standards.

For a Smog check test failure, if your Warranty Claim under the 2011 Emission Control Systems Limited Warranties is denied, HMA or its dealer will provide you with a written explanation of why the claim was denied within 30 days from the time you bring the car to Hyundai Dealer or Certified Equus Dealer (Equus only).

If the authorized Hyundai Dealer or Certified Equus Dealer (Equus only) does not notify the vehicle owner within 30 days that a warrantable condition does not exist, then HMA will repair the vehicle free of charge, unless:

- o The delay is requested by you, the Hyundai vehicle owner.
- o The delay is caused by factors beyond the control of HMA or an authorized Hyundai Dealer or Certified Equus Dealer (Equus only).

The lack of availability of warranted parts within 30 days shall constitute an emergency situation (see EMERGENCY REPAIR).

### **EMERGENCY REPAIR**

In an emergency, where an authorized Hyundai Dealer or Certified Equus Dealer (Equus only) is not reasonably available, warranty repairs may be made at any available service facility, or by the owner using any replacement part. A repair not being completed within 30 days also constitutes an emergency.

HMA will reimburse you for your expenses including diagnostic charges, for repairs covered by this warranty, for parts at HMA's suggested retail price, and for labor at a geographically appropriate labor rate per HMA's recommended time allowance. For reimbursement, present all replaced parts and a copy of your paid receipt to any authorized Hyundai Dealer or Certified Equus Dealer (Equus only). HMA assumes no liability for the workmanship of the repair facility.

### **CALIFORNIA VEHICLE INSPECTION PROGRAM**

If your 2011 Hyundai vehicle fails to pass a Smog Check test after a period of use of 5 years or 60,000 miles, but before a period of use of 8 years or 80,000 miles, whichever occurs first, you may choose to have your vehicle repaired at an authorized Hyundai Dealer or Certified Equus Dealer (Equus only) or another service facility.

**SECTION 10 EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE**

In the event that the Hyundai Dealer or Cerified Equus Dealer (Equus only) determines that the smog check failure was caused by the failure or malfunction of a part listed in this Owner's Handbook specially noted with coverage for 8 years or 80,000 miles, then your Hyundai vehicle will be repaired under this limited warranty at no expense to you, unless the part failure or malfunction was caused by abuse, neglect, or improper maintenance.

However, if the authorized Hyundai Dealer or Cerified Equus Dealer(Equus only) determines that the smog check failure was directly caused by abuse, neglect, or improper maintenance, then you will be responsible for all diagnostic and repair costs related to detecting and repairing your Hyundai vehicle so it will pass the Smog Check test. If you choose to have your Hyundai vehicle repaired at a service facility other than an authorized Hyundai Dealer or Cerified Equus Dealer(Equus only), HMA will not be liable for any diagnostic and repair expenses, except where such repair is necessary by reason of an emergency.

If your Hyundai vehicle is determined to fail the Smog Check test by such service facility, you may deliver your Hyundai vehicle to an authorized Hyundai Dealer or Cerified Equus
